## Kintavar Closes the Transaction to Acquire “Pouvoirie Fer a Cheval”

**Montréal, Québec, August 6, 2019** – Kintavar Exploration Inc. (the “Corporation” or “Kintavar”) (TSX-V: KTR) (FRANKFURT: 58V), is pleased to announce that it successfully closed the transaction to acquire (the “Acquisition”) the Pourvoirie Fer a Cheval (“Fer a Cheval”), one of the most developed hunting and fishing outfitters in the region, that shares its exclusive hunting territories with Kintavar’s Mitchi property.

Kintavar purchased all the shares of the private company owning Fer a Cheval in consideration of \$2.3M, including \$1M financed through long-term debt with two local financial institutions, 3,125,000 common shares (each a “Share”) of Kintavar at a deemed price of \$0.16 (\$500,000), and the balance in cash. The Shares will be subject to a voluntary escrow for a duration of 2 years, with 25% being released every 6 months.

For anyone who wants to learn more about the Fer a Cheval, they are invited to visit its website <http://feracheval.ca/>

The Acquisition remains subject to the final approval of the TSX Venture Exchange. The Shares issued as consideration pursuant to the Acquisition will be subject to a statutory hold period ending on December 2, 2019.

### About Kintavar Exploration & the Mitchi Property

Kintavar Exploration is a Canadian mineral exploration Corporation engaged in the acquisition, assessment, exploration and development of gold and base metal mineral properties. It’s flagship project is the Mitchi property (approx. 30,000 hectares, 100% owned) located west of the Mitchinamecus reservoir, 100 km north of the town of Mont-Laurier. The property covers an area of more than 300 km<sup>2</sup> accessible by a network of logging and gravel roads with a hydro-electric power substation located 14 km to the east. The property is located in the north-western portion of the central metasedimentary belt of the Grenville geological province. Many gold, copper, silver and/or manganese mineralized showings have been identified to date, with many characteristics suggesting of a sediment-hosted stratiform copper type mineralization (SSC) in the Eastern portion of the property and Iron Oxide Copper Gold (IOCG) and skarn type mineralization in the Western portion. Osisko holds a 2% NSR on 27 claims of the southern portion of the Mitchi property, outside of the sedimentary basin.

**Forward looking Statements:**

*Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.*

*This news release contains statements that may constitute “forward-looking information” or “forward looking statements” within the meaning of applicable Canadian securities legislation. Forward-looking information and statements may include, among others, statements regarding future plans, costs, objectives or performance of the Corporation, or the assumptions underlying any of the foregoing. In this news release, words such as “may”, “would”, “could”, “will”, “likely”, “believe”, “expect”, “anticipate”, “intend”, “plan”, “estimate” “target” and similar words and the negative form thereof are used to identify forward-looking statements. Forward-looking statements should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether, or the times at or by which, such future performance will be achieved. No assurance can be given that any events anticipated by the forward-looking information will transpire or occur, including additional closings of the private placement referred to above, or if any of them do so, what benefits the Corporation will derive. Forward-looking statements and information are based on information available at the time and/or management's good-faith belief with respect to future events and are subject to known or unknown risks, uncertainties, assumptions and other unpredictable factors, many of which are beyond the Corporation's control. These risks, uncertainties and assumptions include, but are not limited to, those described under “Risk Factors” in the Corporation's management's discussion and analysis for the fiscal year ended December 31, 2018, which is available on SEDAR at [www.sedar.com](http://www.sedar.com); they could cause actual events or results to differ materially from those projected in any forward-looking statements. The Corporation does not intend, nor does the Corporation undertake any obligation, to update or revise any forward-looking information or statements contained in this news release to reflect subsequent information, events or circumstances or otherwise, except if required by applicable laws.*
