Kintavar Closes \$3.29M Private Placement for Wabash Copper Project

Montréal, Québec, November 11, 2021 – Kintavar Exploration Inc. (the “Corporation” or “Kintavar”) (TSX-V: KTR) (FRANKFURT: 58V), is pleased to announce that it has closed a non-brokered private placement (the “Offering”) and issued 6,226,297 units of the Corporation (each a “Unit”) at a price of \$0.17 per Unit and 9,702,447 common shares of the Corporation (each a “Share”), issued on a flow through basis, at a price of \$0.23 per Share, for total cumulative gross proceeds of \$3,290,033. Each Unit being comprised of one (1) Share and one half of one (1/2) Share purchase warrant, each whole warrant entitling the holder hereof to acquire one (1) Share at a price of \$0.23 per Share until November 10, 2023. The Offering is subject to final acceptance of the TSX Venture Exchange.

“After an exciting summer season full of discoveries at the Wabash project, Kintavar has now secured an important financing to take the project to the next step. In addition to strong support from institutional and existing shareholders, the project has now attracted interest from numerous retail brokers. Everyone is looking for the next major copper discovery and we believe Kintavar has a very special project that could deliver that. The entire Mitchi-Wabash district is only in its early days. This financing gives us a strong sign of support and confidence as we begin the initial drilling program on Wabash and prepare for a very active 2022. The ongoing COP26 summit demonstrates the importance of electrification and reduction of greenhouse gases which requires a substantial amount of copper that is not available today. The world needs new copper discoveries and Kintavar being well financed with cash flow from its local operations, world class infrastructure, local support and geopolitical stability in Quebec is well positioned to be part of the solution.” commented Kiril Mugerma, President & CEO of Kintavar.

Certain officers and directors of the Corporation or related corporation have participated in this Private Placement for a total of 550,000 Shares and 100,000 Units distributed pursuant to the Offering (the “Insiders’ Participation”). The Insiders’ Participation is exempt from the formal valuation and shareholder approval requirements provided under Regulation 61-101 respecting Protection of Minority Holders in Special Transactions (“Regulation 61-101”) in accordance with sections 5.5(a) and 5.7(a) of said Regulation 61-101. The exemption is based on the fact that the market value of the Insiders’ Participation or the consideration paid by such insiders does not exceed 25% of the market value of the Company. The Company did not file a material change report at least 21 days prior to the completion of the private placement since the Insiders’ Participation was not determined at that moment.

The Corporation will use the proceeds of the Offering for drilling, geophysics and field exploration on the Wabash property and for working capital purposes.

The shares acquired by the subscribers are subject to a hold period of four months plus one day from the closing date, ending on March 11, 2022, except as permitted by applicable securities legislation and the rules of TSX Venture Exchange.

In connection with this Offering, the Corporation has paid a cash finder's fee in an amount of \$129,421 and issued 603,486 non-transferable broker warrants to acquire such number of common shares at a price of \$0.23, exercisable for a period of twenty-four (24) months and subject to a hold period of four months plus one day from the closing date.

About Kintavar Exploration & the Mitchi – Wabash Properties

Kintavar Exploration is a Canadian mineral exploration Corporation engaged in the acquisition, assessment, exploration and development of gold and base metal mineral properties. Its flagship project is the Mitchi – Wabash copper-silver district (approx. 39 000 hectares, 100% owned) located 100 km north of the town of Mont-Laurier and 15 km East of the town of Parent in Quebec. Both properties cover an area of more than 300 km² accessible by a network of logging and gravel roads with access to hydro-electric power already on site, major regional roads including railroad and a spur. The properties are located in the north-western portion of the central metasedimentary belt of the Grenville geological province. The projects primarily focus on sediment-hosted stratiform copper type mineralization (SSC) but include Iron Oxide Copper Gold (IOCG) and skarn type targets. Osisko holds a 2% NSR on 27 claims of the southern portion of the Mitchi property, outside of the sedimentary basin. Kintavar also has exposure in the gold greenstones of Quebec by advancing the Anik Gold Project in a partnership with IAMGOLD and several early-stage projects that were optioned by Gitennes Exploration.

Kintavar supports local development in the Mitchi-Wabash region where it owns and operates the Fer à Cheval outfitter (www.feracheval.ca), a profitable and cashflow generating operation where it employs local workforce. It as well works with local First Nations to provide training and employment.
